## Introduction

Thank you for purchasing the LINDY VGA to TV Converter Classic. This device allows you to view the output from a VGA Video port on any PAL compatible TV or projector for large screen viewing.

## Package Contents

- PC to TV Converter
- S-Video cable, appr. 1.4m
- AV cable (Composite Video), appr. 1.4m
- LINDY Manual

## Features

- Converts PC VGA to Composite and/or S-Video TV display signal
- Supports Video and Audio Signals
- Plug and Play, no software driver required
- Simultaneous display on PC and TV Monitor
- Input: 1x VGA, 1x Audio 3.5mm, 1x USB (Power)
- Output: Composite Video + Stereo Audio, S-Video (PAL only)

## Installation

This VGA to TV Converter is a true Plug and Play device which does not require any software or drivers to operate. Simply attach the 15 way HD male VGA connector of the converter to the VGA video port as well as the 3.5mm Stereo Jack to the audio port of your computer. The converter is powered by the computer via USB. Then connect the converter to your TV or other compatible AV device either with the included composite video or S-Video cable.

Please refer to the diagram below for a typical application using the VGA to TV converter.

① Audio Input ;

③ Power Input ;

②VGA Input;

④ Working LED ;

⑤ Audio R output;

⑦ Composite Video output;

⑥ Audio L output;

⑧ S-Video output;

#### Trouble Shooting:

- No picture displayed: Please check that power supply and cables are connected. If you use a notebook, please set to VGA output. If no picture is displayed on the TV, make sure that the TV is switched to Composite Video output (or S-Video).
- Picture quality: Check if you have set the right resolution; 1024x768 or 800x600 is recommended.

## CE and Recycling Information

### FCC Certifications

This equipment has been tested and found to comply with the limits for a Class B Digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received; including interference that may cause undesired operation.

### CE Statement

This equipment complies with the relevant EC Regulations for IT Equipment

**WEEE (Waste of Electrical and Electronic Equipment),  
Recycling of Electronic Products**

### United Kingdom

In 2006 the European Union introduced regulations (WEEE) for the collection and recycling of all waste electrical and electronic equipment. It is no longer allowable to simply throw away electrical and electronic equipment. Instead, these products must enter the recycling process.

Each individual EU member state has implemented the WEEE regulations into national law in slightly different ways. Please follow your national law when you want to dispose of any electrical or electronic products. More details can be obtained from your national WEEE recycling agency.

### Germany

Die Europäische Union hat mit der WEEE Richtlinie umfassende Regelungen für die Verschrottung und das Recycling von Elektro- und Elektronikprodukten geschaffen. Diese wurden von der Bundesregierung im Elektro- und Elektronikgerätegesetz – ElektroG in deutsches Recht umgesetzt. Dieses Gesetz verbietet vom 24.März 2006 an das Entsorgen von entsprechenden, auch alten, Elektro- und Elektronikgeräten über die Hausmülltonne! Diese Geräte müssen den lokalen Sammelsystemen bzw. örtlichen Sammelstellen zugeführt werden! Dort werden sie kostenlos entgegen genommen. Die Kosten für den weiteren Recyclingprozess übernimmt die Gesamtheit der Gerätehersteller.

### France

En 2006, l'union Européenne a introduit la nouvelle réglementation (DEEE) pour le recyclage de tout équipement électrique et électronique.

Chaque Etat membre de l' Union Européenne a mis en application la nouvelle réglementation DEEE de manières légèrement différentes. Veuillez suivre le décret d'application correspondant à l'élimination des déchets électriques ou électroniques de votre pays.

### Italy

Nel 2006 l'unione europea ha introdotto regolamentazioni (WEEE) per la raccolta e il riciclo di apparecchi elettrici ed elettronici. Non è più consentito semplicemente gettare queste apparecchiature, devono essere riciclate. Ogni stato membro dell' EU ha tramutato le direttive WEEE in leggi statali in varie misure. Fare riferimento alle leggi del proprio Stato quando si dispone di un apparecchio elettrico o elettronico.

Per ulteriori dettagli fare riferimento alla direttiva WEEE sul riciclaggio del proprio Stato.
