What Is · Hurricane™ 700

Fog Fluid (1 pint) Quick Reference Guide Included : **Power Cord** Permanently Wired Remote

Instructions

Unpacking Carefully unpack the product immediately and check the container to make sure all the parts are in the package and are in good condition.

Warranty Card

Claims If the box or the contents (the product and included accessories) appear damaged from shipping, or show signs of mishandling, notify the carrier immediately, not CHAUVET®. Failure to report damage to the carrier immediately may invalidate your claim. In addition, keep the box and contents for inspection.

> For other issues, such as missing components or parts, damage not related to shipping, or concealed damage, file a claim with CHAUVET® within 7 days of delivery.

Text Conventions

	Convention	Meaning
	1 to 512	A range of values
,	50/60	A set of values of which only one can be chosen

Symbols

Safety Notes These notes include important information about the mounting, usage, and maintenance of this product; read before using the product.

- Always connect the product to a grounded circuit to avoid the risk of electrocution.
- Always disconnect the product from the power source before cleaning or replacing the fuse.
- Make sure the power cord is not crimped or damaged.
- Never disconnect the product from power by pulling or tugging on the cord.
- If mounting the product overhead, always secure to a fastening device using a safety cable.
- Make sure there are no flammable materials close to the product when operating.

- Do not touch the product's housing when operating because it may be very hot.
- Do not mount the product on a flammable surface (linoleum, carpet, wood, paper, carton, plastic, etc.).
- Do not touch the output nozzle on this product. It is very hot during operation and it may remain hot for several hours after turning the product off.
- The fog exits the nozzle at a very high temperature. Keep a minimum distance of 6.5 ft (2 m) from the nozzle to the nearest object.
- Do not drink the fog fluid. If you do, call your local emergency service (911 in the US) for help.
- Do not add perfume, alcohol, gasoline, or any other flammables to the fog fluid.
- Depending on the amount of fog generated, all fog machines may set off smoke detectors.
- Always make sure that the voltage of the outlet to which you are connecting the product is within the range stated on the decal or rear panel of the product.
- Always install the product in a location with adequate ventilation, at least 20 in (50 cm) from adjacent surfaces.
- Be sure that no ventilation slots on the product's housing are blocked.
- Never connect the product to a dimmer or rheostat.
- Make sure to replace the fuse with another of the same type and rating.

- Never carry the product from the power cord or any moving part. Always use the hanging/mounting bracket.
- The maximum ambient temperature (Ta) is 104 °F (40 °C). Do not operate the product at higher temperatures.
- In the event of a serious operating problem, stop using the product immediately.
- Never try to repair the product. Repairs carried out by unskilled people can lead to damage or malfunction. Contact the nearest authorized technical assistance center.
- This product is not intended for permanent installation.
- Do not use for space heating purposes.
- Use only CHAUVET® water-based fog fluid.
- Drain the tank before transporting the product.

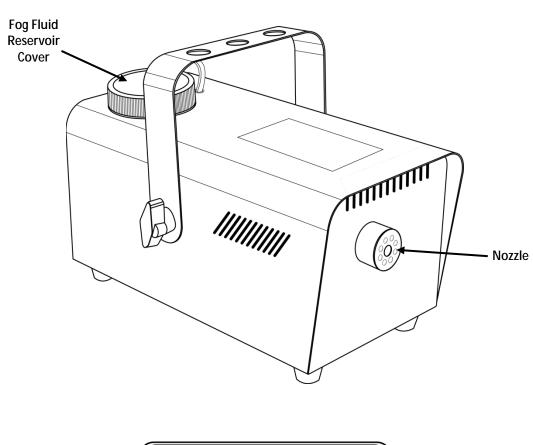

Keep this User Manual for future use. If you sell the product to another user, be sure to give this document to the next owner.

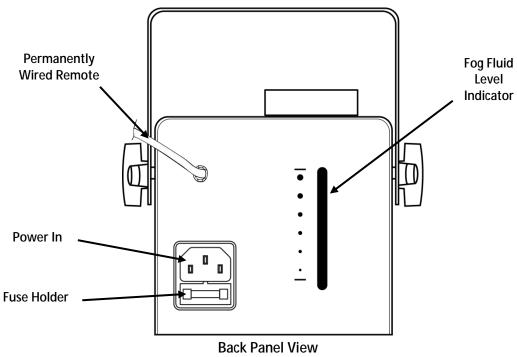

FCQ (Fog Cleaner Quart) was specifically developed by CHAUVET® to clean your Hurricane™ 700. Make sure you use FCQ regularly to increase the life of your fogger.

2. Introduction

Overview

3. SETUP

AC Power The Hurricane™ 700 has a fixed voltage power supply and it can work with an input voltage of either 120 VAC, 60 Hz or 230 VAC, 50 Hz, depending on the specific model.

> To determine the product's power requirements (circuit breaker, power outlet, and wiring), use the current value listed on the label affixed to the product's back panel, or refer to the product's specifications chart. The listed current rating indicates the product's average current draw under normal conditions.

Always connect the product to a protected circuit (circuit breaker or fuse). Make sure the product has an appropriate electrical ground to avoid the risk of electrocution or fire.

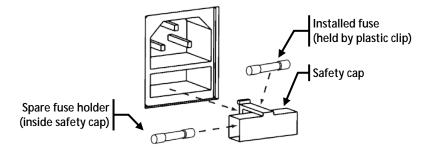

Never connect the product to a rheostat (variable resistor) or dimmer circuit, even if the rheostat or dimmer channel serves only as a 0 to 100% switch.

Replacement

Disconnect the product from power before replacing the fuse.

- 1. Disconnect the product from power.
- Wedge the tip of a flat-head screwdriver into the slot of the fuse holder.
- Pry the fuse holder out of the housing.
- Remove the blown fuse from the holder.
- Replace with a fuse of the exact same type and rating.
- Insert the fuse holder back in place and reconnect power.

A spare fuse is not included; however, the safety cap has room for a spare.

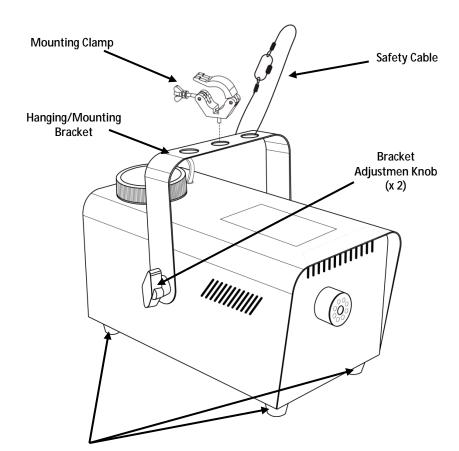

Always replace a blown fuse with another of the same type and rating.

Mounting Before mounting the product, read and follow the safety recommendations indicated in the Safety Notes.

Orientation When mounting the Hurricane™ 700, make sure adequate ventilation is provided around the product.

Rigging ·

- Before deciding on a location, always make sure there is easy access to the product for maintenance and fluid replenishment.
- Make sure that the structure or surface onto which you are mounting the product can support the product's weight (see the Technical Specifications).
- When mounting the product overhead, always use a safety cable. Mount the product securely to a rigging point, such as an elevated platform or a truss.
- When rigging the product onto a truss, you should use a mounting clamp of appropriate weight capacity. The bracket has 8.89-mm holes, which are appropriate for this purpose.
- The bracket adjustment knobs allow for directional adjustment when aiming the product to the desired angle. Only loosen or tighten the bracket knobs manually. Using tools could damage the knobs.

Rubber Feet (x4) for floor mounting

4. OPERATION

Using the Trigger the Hurricane™ 700 using the included wired remote. The LED indicator on the remote indicates when the fogger has reached the required operating temperature. Press Wired Remote the button on the remote to momentarily output fog. The length of the wired remote is 13 ft (4m).

Permanently Wired Remote

Fill the fog fluid reservoir with CHAUVET® water-based fog fluid before operating the Hurricane™ 700.

5. TECHNICAL INFORMATION

Maintenance

Fogger Do not allow the fogger to become contaminated. After every 40 hours of continuous operation, CHAUVET® recommends cleaning the system to prevent the accumulation of particulate matter in the heating element.

The recommended cleaning procedure is as follows:

- 1. Empty all fog liquid from the machine.
- Add cleaning solution to the tank.
- Connect the product to power and allow it to warm up.
- Run the unit in a well-ventilated area until the tank is almost empty. Do not allow the pump to run dry.
- Cleaning is now complete. Refill with fog liquid. Run the machine briefly to clear any cleaning solution from the pump and heater.

FCQ (Fog Cleaner Quart) was specifically developed by CHAUVET® to clean your Hurricne[™] 700. Make sure you use FCQ regularly to increase the life of your fogger.

Storage Before storing the product, run distilled water (not tap water) through the system as described in the cleaning method above. This will help to avoid any particles condensing inside the pump or heater.

> It is strongly recommended to test-run the machine on a monthly basis in order to achieve its best hazing condition.

To return a product or request support:

- In the U.S., contact CHAUVET® World Headquarters (see below).
- In the UK or Ireland, contact CHAUVET® Europe Ltd. (see below).
- In any other country, DO NOT contact CHAUVET®. Contact your distributor. See www.chauvetlighting.com for distributors outside the U.S., United Kingdom, or Ireland.

If you live outside the U.S., United Kingdom, or Ireland, contact your distributor of record and follow their instructions on how to return CHAUVET® products to them. Visit our website for contact details.

Returns Call the corresponding CHAUVET® Technical Support office and request a Return Merchandise Authorization (RMA) number before shipping the product. Be prepared to provide the model number, serial number, and a brief description of the cause for the return.

> You must send the merchandise prepaid, in its original box, and with its original packing and accessories. CHAUVET® will not issue call tags.

> Clearly label the package with the RMA number. CHAUVET® will refuse any product returned without an RMA number.

Write the RMA number on a properly affixed label. DO NOT write the RMA number directly on the box.

Before sending the product, clearly write the following information on a piece of paper and place it inside the box:

- Your name
- Your address
- Your phone number
- RMA number
- A brief description of the problem

Be sure to pack the product properly. Any shipping damage resulting from inadequate packaging will be your responsibility. FedEx packing or double-boxing are recommended.

CHAUVET® reserves the right to use its own discretion to repair or replace returned product(s).
