## Bluetooth Audio Receiver

### Play music from your any Bluetooth mobile phone, MP3 player or Laptop

With Bluetooth wireless technology, BT0022 gives you the convenient wireless way to enjoy the streaming stereo music transmitted from the Bluetooth A2DP device such as mobile phone, mp3 player, PC or PDA in the available range.

### Connect your Music Player to any Speaker, HiFi system or home theater without wires

The LogiLink BT0022 is a stereo Bluetooth audio adapter. You can use a common audio device with 3.5mm audio-in for playing back any stereo Bluetooth-enabled device's music after plugging in BT0022.

### Connect BT0022 to any headset and instantly turn them into wireless Bluetooth Headsets

Plug BT0022 into any headset you have, it will turn them into a Bluetooth headset. Enable you to connect to your mobile phone to enjoy the music and answer the call with Bluetooth conveniently. With the clip on BT0022, let you easily carry it on your T-shirt etc.

### Supports play/pause/skip and volume functions

Moreover, you can use BT0022 to remote control the music playing functions of your Bluetooth device that supports Bluetooth AVRCP.

### Easily switch between music and phone calls

Switching between music and phone calls, BT0022 also allows you answer or make calls with the Bluetooth-enabled mobile phone while you are listening to music. After you ended the call, the music will follow to be streamed in few seconds.

### Supports the Bluetooth-enabled PC with the internet messenger

Besides the wireless stereo and mobile hands-free applications, you can apply the BT0022 to the Bluetooth-enabled PC with the Internet messenger such as Skype, MSN Messenger or Yahoo! Messenger.
